

Durham Evangelical Church

Durham, New Hampshire

WOODBURN
& COMPANY

Landscape Architecture, LLC

A fast-growing congregation resulted in the need to expand this existing church complex to over twice its previous size. Located in an open field along one of Durham's major traffic corridors, the proposed building's size, scale, and parking needs were of concern to the town. The proposed landscape plan became an important tool in negotiations with the town to ensure that the expansion of the site and new parking would be screened by attractive plantings.
