

St. Mary's Church Courtyard

North Grafton, Massachusetts

WOODBURN
& COMPANY

Landscape Architecture, LLC

St. Mary's Church recently completed major renovations as well as the addition of an administrative wing. The resulting enclosed courtyard between the existing church building and the addition provided the opportunity for a visual and contemplative space reminiscent of the courtyards of Italy. Woodburn & Company coordinated with the church's building committee to provide the schematic landscape design with presentation for fundraising.
