

## Downtown Revitalization Northbridge, Massachusetts

Woodburn & Company assisted in the development and creation of an economic development strategy for two downtown areas of Northbridge, Massachusetts in conjunction with RKG Associates, Inc., economic planners and real estate consultants. Tasks included an assessment and redesign of the existing appearance and character of streetscape for both downtown districts. Recommendations for street improvements, additional parking facilities, and suggested façade renovations were developed and refined in a design charrette format. The study resulted in a grant of six million dollars over three years for detailed design and construction of recommended improvements.
